EDUCATION

BBA, Business Analytics (STEM), Minor in Finance · Hofstra University

Aug 2021 – May 2025

- GPA **4.0 (major)** / **3.98 (cumulative)**; Honors College, Degree with Distinction (Honors Thesis); **Presidential Scholarship**
- **Best Paper**, Journal of International Business & Law, "Homes for Profit" on housing affordability (Spring 2025); **1st place**, Zarb Capture-the-Flag Cybersecurity Competition (2025); **2nd place**, Hofstra Shark Tank-Style Challenge (2024)

EXPERIENCE

Applied AI & Data Science Co-op · JG Wentworth

Jan – June 2026

- Secured **Observe.AI** Reporting-API access and built a Python pipeline (developed hands-on with **Claude + Snowflake MCP**) unpacking speaker-tagged JSON call transcripts into **Snowflake**, following the team's established **Airflow** ingestion pattern
- Engineered **semantic and sentiment scoring** with **Snowflake Cortex AISQL** (AI_CLASSIFY, SENTIMENT, EMBED_TEXT), prototyping prompts and the **hand-labeled objection rubric** with Claude, turning unstructured calls into per-interaction signal
- Proved call-derived semantic features carried **cancellation-risk signal**, then contributed them by pull request into the team's **LightGBM** cancellation model, lifting **AUC +0.02** and sharpening sales-funnel prioritization
- Owned the **compliance layer**: aligned outreach with **TCPA lead-local calling windows** and DNC/state contact rules, supported **CFPB**-oriented QA checks (recorded-line disclosure, credit-pull permission), and kept scoring uniform and equitable across agents

Summer Analyst, U.S. Private Bank (Asset & Wealth Management) · J.P. Morgan

May – Aug 2024

- Built an automated **portfolio data-flow tool** over J.P. Morgan's internal portfolio data for a client's **\$1B+ portfolio**, replacing hours of manual re-entry with a **minutes-long refresh** the banker team kept using after the internship
- Ran **Monte Carlo simulations** across an investor's book of **35 ultra-high-net-worth clients (\$7B)**, pinpointing those most likely to convert out of cash- and bond-heavy portfolios, and built the **investor-client pitch decks** used to pitch diversified, actively managed alternatives
- Drafted **\$25M+** high-net-worth outreach materials and contributed analysis to a **\$35M investment proposal** presented by the senior team, supporting a **+20%** rise in monthly client acquisition and a 5-point gain in brokerage wins for GFG Emerging Europe
- With rate cuts poised to end unsustainable **5.30–5.60% cash yields**, built an **Excel (Office Script)** screening tool that filtered the client book by available cash and produced **per-banker priority lists**, queueing the highest-value repossessioning conversations

Research Assistant to Dr. Hak Kim · Hofstra University, Business Analytics Dept.

June 2022 – May 2023

- Built a **Python** pipeline to collect and clean stock-news data for Amazon, Tesla, and other names, using the **GPT-4 API (early access)** to score each article's sentiment
- Formulated 3 hypotheses on how news sentiment shifts **price, volume, and volatility**, and tested them with an **LSTM (long short-term memory)** forecasting model over the sentiment-scored series
- Co-authored a department-supported paper showing **GPT-augmented sentiment** lifted forecast accuracy **~5%** over traditional NLP baselines, and presented the findings at Hofstra's undergraduate research conference

LEADERSHIP & COMMUNITY

Founder & TikTok Content Lead · Help Ukraine Store

Feb 2022 – Feb 2024

- Founded the Ukraine-themed apparel store and produced and filmed the **viral TikTok content** that drove its growth (**11.3M views, 1.8M likes**)
- Ran the store end-to-end (storefront, suppliers, inventory, fulfillment), selling **~590 hoodies at \$75** and routing the proceeds to charity
- Raised **\$44,500** for **32 war-affected children** through the Voices of Children Foundation, with campaigns **featured on Voice of America**

Volunteer · Kind Deeds, Inc. (501(c)(3))

May 2022 – May 2026

- Researched **prosthetics providers and rehabilitation options** for severely wounded Ukrainians and kept the books on **donations and treatment expenses** for the 501(c)(3)
- Built partnerships with **clinics, organizations, and donors** and ran outreach in the **Ukrainian diaspora community**, expanding the nonprofit's support network

Teacher & Student Leader · Hofstra University

Jan 2022 – May 2025

- Taught elementary-school students financial foundations (what banks do, credit vs. debit, deposits) through the **Money & Me** program, and led startup workshops at the **Zarb Entrepreneurship Academy**
- As **Zarb Business Ambassador**, hosted high-school and admitted students and parents on school tours, fielding questions and promoting Zarb's scholarships and competitions; mentored first-years as a **BBA 100 Mentor**
- Student leader for the **Rabinowitz Honors College** summer program each year since freshman year, volunteering at local community centers and libraries such as the **John J. Byrne Community Center** (Uniondale, NY)

SKILLS

AI & LLM: Claude API + Model Context Protocol (MCP), agentic workflows (hooks, subagents, memory, guardrails, skills), Snowflake Cortex AISQL, GPT-4 API, NLP & semantic / sentiment scoring, prompt/output evaluation

Data & Programming: Python (pandas, PySpark, PyTorch), LSTM forecasting, SQL (Oracle, SQLite), Snowflake, HTML, Git/GitHub, Tableau, Power BI, Bloomberg, Excel (macros, Office Script)

Finance & Research: asset-allocation modeling, Monte Carlo, DCF, fundamental & technical analysis, forecasting

Certifications: AI Fluency & Claude 101 (Anthropic), Oracle Certified Generative AI Professional, SIE (FINRA), Bloomberg Market Concepts, Microsoft Excel Associate
