EDUCATION

BBA, Business Analytics (STEM), Minor in Finance · Hofstra University

Aug 2021 – May 2025

- GPA **4.0 (major)** / **3.98 (cumulative)**; Honors College, Degree with Distinction (Honors Thesis); **Presidential Scholarship**
- **Best Paper**, Journal of International Business & Law, "Homes for Profit" on housing affordability (Spring 2025); **1st place**, Zarb Capture-the-Flag Cybersecurity Competition (2025); **2nd place**, Hofstra Shark Tank-Style Challenge (2024)

EXPERIENCE

Applied AI & Data Science Co-op · JG Wentworth

Jan – June 2026

- Secured **Observe.AI** Reporting-API access and built a Python pipeline unpacking speaker-tagged JSON call transcripts into analysis-ready **Snowflake** tables, following the team's established **Airflow** ingestion pattern
- Engineered **semantic and sentiment scoring** with **Snowflake Cortex AISQL** (AI_CLASSIFY, SENTIMENT, EMBED_TEXT), prototyping prompts and the **hand-labeled objection rubric** with Claude, turning unstructured calls into per-interaction signal
- Proved call-derived semantic features carried **cancellation-risk signal**, then contributed them by pull request into the team's **LightGBM** cancellation model, lifting **AUC +0.02** and sharpening which at-risk customers the sales and retention teams prioritized
- Owned the **compliance layer**: kept the call analysis delivered to sales within **equal-employment-opportunity** rules, and used the Observe.AI call data to **verify sales agents stayed compliant** on calls in a regulated fintech
- Worked daily inside the team's **Claude Code** environment, a GitHub repo with CLAUDE.md context docs, **subagents**, and **MCP** warehouse connections, and helped document its Observe.AI workflows for the team

Summer Analyst, U.S. Private Bank (Asset & Wealth Management) · J.P. Morgan

May – Aug 2024

- Ran **Monte Carlo simulations** across an investor's book of **35 ultra-high-net-worth clients (\$7B)**, pinpointing those most likely to convert out of cash- and bond-heavy portfolios ahead of expected **Fed rate cuts**, and built the investor–client pitch decks quantifying the returns clients were forgoing in cash versus diversified alternatives such as J.P. Morgan actively managed funds
- Drafted **\$25M+** high-net-worth outreach materials and contributed analysis to a **\$35M investment proposal** presented by the senior team, supporting a **+20%** rise in monthly client acquisition and a 5-point gain in brokerage wins for GFG Emerging Europe
- With rate cuts poised to end unsustainable **5.30–5.60% cash yields**, built an **Excel (Office Script)** screening tool that filtered the client book by available cash and produced **per-banker priority lists**, queueing the highest-value repositioning conversations

Research Assistant to Dr. Hak Kim · Hofstra University, Business Analytics Dept.

June 2022 – May 2023

- Built a **Python** pipeline to collect and clean **1,000+ stock-news articles** on Amazon, Tesla, and other Magnificent 7 names, scoring each with the **GPT-4 API (early access)** and joining the scores to daily price/volume data into a forecasting dataset
- Formulated 3 hypotheses on how news sentiment shifts **price, volume, and volatility**, testing an **LSTM (long short-term memory)** forecasting model **with and without the sentiment features** to isolate their lift
- Co-authored a department-supported paper showing **GPT-augmented sentiment** lifted **directional forecast accuracy ~5%** over standard Python NLP baselines, and presented the findings at **Hofstra's Undergraduate Research Day**

LEADERSHIP & COMMUNITY

Volunteer · Kind Deeds, Inc. (501(c)(3))

May 2022 – May 2026

- Researched **prosthetics providers and rehabilitation options** for severely wounded Ukrainians and kept the books on **donations and treatment expenses** for a 501(c)(3) that has fitted **50+ soldiers** with free prosthetics
- Built partnerships with **clinics, organizations, and donors** and ran outreach in the **Ukrainian diaspora community**, expanding the support network behind its **\$1.1M+ raised** for the Ukraine-to-New-York care pipeline

Teacher & Student Leader · Hofstra University

Jan 2022 – May 2025

- Taught elementary-school students financial foundations (banks, credit vs. debit, deposits) through the **Money & Me** program. Led startup workshops for **8th–9th graders** at the **Zarb Entrepreneurship Academy**, showcasing real success stories
- As **Zarb Business Ambassador**, hosted prospective and admitted students and parents on school tours, promoting Zarb's scholarships and competitions. Mentored first-years as a **BBA 100 Mentor** on LinkedIn, resumes, and internships
- Led a cohort of admitted freshmen through the **Rabinowitz Honors College** 12-week summer program since freshman year. Introduced them to Long Island and its community, volunteering at the **John J. Byrne Community Center** and local libraries

Founder & TikTok Content Lead · Help Ukraine Store

Feb 2022 – Feb 2024

- Founded the Ukraine-themed apparel store and ran it end-to-end: built the **Shopify** storefront, managed **print-on-demand production and in-house inventory**, and packed and shipped **~590 hoodies at \$75**, routing proceeds to charity
- Created the account's **street-interview TikTok format**, filming and editing every video in **Adobe Express and Illustrator** while friends ran the on-camera interviews, posting 3x/week to reach **14M views and 1.8M likes**
- Raised **\$44,500 for 32 war-affected children**, donating profits through the **Voices of Children Foundation** and directly to affected families; interviewed and featured by **Voice of America** for the campaigns

SKILLS

AI & LLM: Claude API + Model Context Protocol (MCP), agentic workflows (hooks, subagents, memory, guardrails, skills), Snowflake Cortex AISQL, GPT-4 API, NLP & semantic / sentiment scoring, prompt/output evaluation

Data & Programming: Python (pandas, PySpark, PyTorch), LSTM forecasting, SQL (Oracle, SQLite), Snowflake, HTML, Git/GitHub, Tableau, Power BI, Bloomberg, Excel (macros, Office Script)

Certifications: Anthropic: AI Fluency, AI Fluency for Nonprofits, Claude 101, Building with the Claude API, MCP: Advanced Topics; Oracle Certified Generative AI Professional; SIE (FINRA); Bloomberg Market Concepts; Microsoft Excel Associate
